WORK EXPERIENCE

Freelance Web Developer (06/2020 - Present)

- Design, build, and deploy websites from the ground up. Including custom layouts, icons, and animations.
- Communicate with clients with various interests to achieve specific goals, as well as redesigning based on changing needs and interests.

PROJECTS

Therapist Professional Profile

Profile page for the private practice of Toronto therapist Tara McMahon. Developed a visual design using linear gradients and textures to produce a relaxing, friendly yet professional tone. Page entrances we animated to reinforce the semantic and logo design.

Web-Essay on Piet Mondrian

Website hosting a multi-chapter essay on the life and art of the famous abstract painter Piet Mondrian. Developed responsive design based on fixed aspect ratios and a strict portrait/landscape distinction. Use of responsive images to optimize page loads.

SKILLS AND LANGUAGES

- Responsive Images / Responsive Design, Page Load Performance Optimization, Custom Audio / Animation Players and SVG Icons, Geometrical/Texture/Gradients Visual Themes, SEO, Logo/Branding Design.
- JavaScript (React, Node.js), HTML/CSS, Svelte, SVG.

EDUCATION / TRAINING

Recurse Center, New York (01/2020 - 06/2020)

- Studied React, generative art, Node, API calls, and game design.
- Focus on data structures and algorithms in JavaScript, including trees, graphs, sorting, searching, dynamic programming, recursion, etc.

Concordia University, Montreal

BA in Linguistics, minor in Philosophy.
